To Whom It May Concern:

RE: MSDS For Carpeting

I am in receipt of your request for a Material Safety Data Sheet (MSDS).

As defined by the Federal Hazard Communications Standard (29 CFR 1910-1200), our carpet does not contain any hazardous ingredients nor pose a hazard as a finished product when used as intended. An MSDS is not required. A copy of this letter in your files will show you are in compliance with the Hazard Communications Act.

I trust this fulfills your needs. If I can be of further assistance, please contact me.

Sincerely,

MANNINGTON COMMERCIAL

Kelly Parker  
Technical Services Coordinator
