

MANNINGTON COMMERCIAL

MANNINGTON MT-711 ADHESIVE for CREATE

Description: MT-711 Pressure-sensitive adhesive is a solvent-free, acrylic based adhesive. It is nonflammable, and anti-microbial with zero calculated VOC's. MT-711 is freeze thaw stable.

Features:

- Easy Application
- VOC compliant / Low odor / solvent free.
- Moisture and alkali resistant.
- Nonflammable.
- Readily identifiable Mylar chips
- Contains fungicide protection
- Complies with SCAQMD Rule 1168

Directions: Make sure the underfloor is clean and free of all foreign matter such as dirt, paint, oil, wax, etc. It must be smooth and level. Sand off any high spots and fill low spots, cracks, holes, etc., with the appropriate Mannington patching compound. The building must have permanent heat / air. Maintain the adhesive, floor covering, and jobsite at a minimum of 65°F for at least 48 hours before, during, and after the installation.

MT-711 adhesive should be applied with a trowel having notches 1/16 wide, 1/16 deep, and spaced 1/16 apart in an even and uniform thickness. The adhesive must be spread over 100% of the exposed subfloor, leaving no gaps or puddles. Uniform coverage can be maintained by keeping the trowel clean and properly notched.

After spreading the adhesive allow the adhesive to develop tack before installing. The adhesive should have sufficient tack to hold the tile in place but not allowed to go completely clear.

You can clean fresh adhesive smears with water. Remove dried adhesive with mineral spirits.

Avoid heavy traffic on the finished floor for at least 24 hours.

Coverage: Approximately 150 sq. ft. per gallon

CAUTION: All nonporous substrates must be rendered porous by applying an overlay of cementitious product before applying V-82.

Packaging: 1 Gallon and 4 Gallon Pails

Precautions:

- Use with adequate ventilation.
- Do not use where **excessive** moisture, alkali, or hydrostatic pressure exists.
- Prevent prolonged breathing of vapor and skin contact.
- Do not apply directly over gypsum based surfaces.
- Avoid contact with eyes
- Do not ingest.
- KEEP OUT OF THE REACH OF CHILDREN.
